HOW TO ORDER:

Your order includes digital PDF proofs with 2 rounds of revisions after initial design. Additional rounds of revisions incur a \$20 charge.

I first give you a more definitive custom quote once I know what pieces/add-ons/upgrades you'd like. Then, to place your order & before I start designing, I require a 30% design deposit and a signed contract. This contract explains in detail how the deposit works.

Once we have your completed form/deposit, I really like to understand your vision. The best way to do this is by seeing a pinterest board (if you have one), or images to reference of ones you've seen that you like/dislike.

Turn around time is 2-3 weeks for initial 4 invite concepts. I also give you a more definitive quote if you want any UPGRADES or ADD-ONS at that time. This is the part that takes the longest, as I am creating each design from scratch tailored to you! After design is chosen, each round of revision requires 3-4 additional business days to complete and I give you 3-4 days to give me feedback for each round.

Once your digital proofs are approved, your balance is due and we get your beautiful pieces ordered!

SHIPPING:

All orders are shipped via UPS Ground, FedEx Ground or USPS Priority - depending on the destination. Shipping can be expedited for additional charge. Shipping is expensive because it includes the price of shipping from the printer to ME (where I make a quality control check) before I then mail everything to YOU. We can lower the cost of shipping if you are available for local pickup.

PRODUCTION

Orders ship OUT 3-4 weeks after proof approval. Timeframe will vary if there is assembly required. Rush processing is available, please contact me with your need by date prior to placing a deposit order to make sure that I can accommodate your request.
